MEDICAL.

STOP THE FUGITIVES!-

STOP THE FUGITIVES!

Stop them! stop theo?

The losed crew.

They come from crack and cranny:
Good Lord: what troops,
From heds, walls, stoops!

Who ever saw so many!

Why come they out
The floors about!

Listen! Each eager crowder
Has come, in haste,
To suif and taste
List death dose—Lyon's Powder.

THOMAS CARSALY. Short.

WM. B. DEAR S. Deputy Short.

fibres of plants, especially of wood, which may be lighted with this gas So much confidence was felt by the discoverer in its practicability, that in judges, who have inspected the operation, that no

The apparatus at Munich is provided with only deliver a much larger quantity than is needed at producing from 650 to 700 cubic feet, according to the quality of the wood. The retort is heated with turf at an expense of about 10 kreutzers an hour, but if two or three retorts were used with the same furnace, the expense of fuel for each would be materially diminished. The charcoa, made in the retort is about 20 per cent of the weight of the wood; this is raked out while ye bot, and placed in closely covered tin boxes to cool in the open air. The coal, which is at pre sent from fir wood, is thoroughly burned, and being more compact than pit coal, is in demand among the dealers. The gas is conducted from the retort through the tar vessel, the condenser and the refiner into the gasometer. The establishment obtains from 5 to 7 per cent. of tar of the best quality. The amount of light rendered by this gas, according to an official measurement by the Directors of the Railroad, equals 15; wax candles from one burner, consuming 4 | feet in an hour. This is greater than the power of the Augsburgh coal gas, which equals from 11 to 13 wax candles, (five to the pound.)

In Munich, those who have compared this gas with common coal gas, give it a decided prefer ence for that vicinity. The most prominent advantage is the facility with which it is produced. While a retort gives at most 180 cubic feet of coal gas in an hour, it will give 360 feet of wood gas. Only half the number of retorts, accordingly, would be required for lighting a city. The quantity of gas, moreover, delivered by wood in comparison with the cost, is of importance. A hundred weight of coal, as it is prepared at Augs-burg and Munich, gives only 500 feet of gas, in the most favorable cases, and costs 1 florin and 6 kreutzers, while the same amount of fir-wood gives 700 feet of gas, at the cost of less than 20 kreutzers, when wood is 7 florins a cord. The advantage is no less on the side of the wood-gas

in respect to the secondary products, coke and tar. The wood gas is not so objectionable in a sanitary point of view as the coal gas, either in its preparation or its use. It has no unpleasant smell; even in its crude state it contains no ammoniac, nor sulphuretted hydrogen, nor carburetted sulphur; nor in burning does it produce a trace of

When the discoverer announced his project of obtaining gas from wood, every engineer and chem ist declared it impossible, since all previous at tempts had produced only gas of a very inferior quality. They according came to the conclusion that the fibers of wood are incapable of gener. ating gas. But this idea is effectually set aside by the Munich experiment.

In an economical point of view, this discovery is considered of wreat importance in Germany. It has already attracted the attention of practical men, and the manner in which we find it spoken of by intelligent judges, shows that it may be welcomed as one of the beneficient contributions of science in the Nineteenth Century to the uses

CITY ITEMS.

CITY IMPROVEMENTS .- The Hudson River Hallroad Company have commenced work in earnest on their Depot upon College-place and Chambers at. The new building will front 600 feet on Chambers st. and 100 feet on Warren st: on College. place it is to be 183 feet. The foundations will be of stone, fifteen feet below the street, and massive iron columns are to be rested upon them. The roof of the Depôt will be formed of zinc. Broadway is undergoing additional improvements, several old brick buildings between Barclay and Spring ats. now being in process of demolition-The large vualts of Stewart's marble building are nearly completed, and that portion of the street thoroughfare is sgain in a passable con-

WIDENING OF WALL ST. BETWEEN NASSAU AND BROADWAY .- The demolition of the build ings on the corner of Wall-st. and Broadway. presents a most favorable opportunity for widening that street. The great inconvenience daily and hourly felt from the crowd of carts in Wall st., above Nassau st., calls for some efficient rem edy. A space of 90 feet is now free from build. ings, and the owners of two thirds of the property in Wall-st. ask that six feet be added to the street above Nassau-st. We earnestly hope that no personal influence whatever will be permitted to defeat a measure so well calculated to promote the public convenience.

"A Victim" writes us that the man with the Subscription-Book is still going his rounds, notwithstanding our former Caution. Two or three persons are said to be gaining a comfortable support by soliciting these donations. Those to whom application may be made will observe that the names are not signatures, but are usually in pencil, and without date. In this way the imposition may be avoided.

BROADWAY DUST

To the Editor of The Tribune : The dust in some parts of Broadway is intolerable to pedestrians, and is doing immense damage to the business and property of merchants. Between the Hospital and Canal-st , for instance, it is daily injuring them to the amount of thousands, in driving customers from their stores, and filling their premises with it in such quantities as to injure and destroy their goods. Why must this he so? The business men of this portion of Broadway, the dis-iance of five blocks, have suffered enough in this manner for the last three weeks to pay for rapairing the street from the City Hail to Union Park. Can you tell us the remedy!

If the Merchants will sign a remonstrance and present it to the proper officer or the Common Council, it will be the duty of the City authorities to have the disagreeable work upon our thoroughfares performed in the most expeditious and cleanly manner. We know no other remedy.

The immigration at this port for Thursday of last week, is shown in the following statement:

| Ment | Skip John Henry, London | 287 | Ship John Henry, London | 233 | Ship Sarah, Giasgow | 615 | Ship Oavid Cannon, Liverpool | 956 | Ship Easex Liverpool | 956 | Ship Foat Stemen | 186 | Ship Poat Stemen | 187 | Bark George | Stemen | 194 | Bark George | Stemen | 194 | Bark Lord Broug bare and Vallx, Cot 2 | 116

INQUESTS BY THE CORONER.—The Coroner yestercay held an inquest at the foot of Broomest, East River, upon the body of Stephen B. Nichols, a native of this State, 43 years of age, who was and femially drowned on the Stat of March last, while attempting to get on board the stoop Alchemyst, of Huntington, L. L., where he restieded. The body was not recovered until yesterday. Decreased was a brother of Dr. Charles B. Nichols, of No. 23 avenue D.

An inquest was held at No. 523 Pearlat, upon the infant non of James Wilson, who on Saturday evening fell from the fifth story window to the ward, fracturing its skull and causing death shortly afterwards. The cuild was at the time on a best with its father who was asleen, the foot of the best earlied to the open window and the child crept out. A vertical of accidental death was rendered.

Accident Accidental death was rendered.

Accident - A carman named Van Riper, of 15 Accident — A Carman name. Saturday morning with a load—the stooped to arrange the load when the base stored, throwing him down and dragging the loaded carrover one of his legs, fracinther is bady, and tearing the fiesh off the arm. He was taken home

INQUEST BY THE CORONER—The Coroner leid an inquest on Friday at the Sixth Ward Police Station upon the how of Charles Carson. 23 years of age, who was found on Thorses y eight in Chathamat, in a dying condition and taken to the Sixthon house, where he died during the eight. A verdict of death by depility and exhaustion was rendered.

BROOKLYN ITEMS.

Another Drad Body Found.—The body of a man, supposed to be one of a pleasure party from New-York, caretzed in a sail boat about a week since, was picked up in Gowanus Bay on Friday. The Coroner was notified.

LAW COURTS.

Court Calendar.....This Day. CIRCUIT COURT.—Nos. 382, 383, 395, 396, 400, 92, 405, 406, 407, 408, 409, 410, 55, 52, 795. Superior Court .- Published on Saturday.

U. S. Distret Court.... \$aturday, May 17.

Before Judge Betts.

The alleged Cubin Expedition —A Grand Jury was empaneled, vir: Wm. F. Havemeyer, fireman, John Aletyne John S. Bussig, Class Davis, James English, Ames R. 1880, Andrew Foster, John C. Oreen, Wm. Hibbard, Wm. B. Ireland, Robt Kelly, J. Keeler, Raiph Mead, Da'l. Parish, Samuel B. Althouse, Richard T. Compen, Fred. C. Havemeyer, Lewis Meallo Ith. N. Wild. The Court then delivered its charge. After stating various cases which are on the Calendar, and will be presented for the action of the Grand Jury, the Court Jemarked that it is probably within the knowledge of the Jurous from perusing the public journals, that a representation has been made by the

The Court suggested, as to sympathy for Guna, suppose persons in some other country considered that a portion of the people of the United States, either as to the Slavery question or something else, required help, and they should not on an expedition to assist them, would not this country consider the Government from which it was fitted out as namerable for the set.

A number of trials, it is known, has already taken place, as to an expedition formerly set on foot for Guba, and al-

A number of trials, it is known, has already taken place, as to an expedition formerly set on foot for Guba, and although it was well known who were engaged in it, the Government could not produce proof that a single individual had been so. This arose from the construction of the law. This Court believes the intention of the law was in good faith to prevent expeditions of the kind being fitted out against friendly powers.

The Court made other remarks, of which the above is an outline. The Grand Jury then retired.

U. S. Circuit Court ... FRIDAY, May 16. J. Schott, Jr. and Margaret, his wife, against

MAIL GLEANINGS.

FINANCIAL OFERATION .- Some two or three FINANCIAL OPERATION.—Some two or three propieties of the Organ and Recalls, stating that a man, amed John Losh, a last Trompson and Recalls, stating that a man, a med John Losh, a last Trompson and McGarthy had becamped from that city, after having avoided a number of persons in New Orleans, New York and Philadelphia, and had be was probably in St. Louis. The receipt of this letter was noticed in that maper Tuesday morning. Some six weaks since, this individual actived in this city, and took an office in the rear of Mr. Mead's lessely store, on Pinetic and sion after made some leavy purchases of produce, which, in the house of Scieles & Co were adopted to New Orienia, and paid for in drafts on hundress houses in City. Since has time, he has been enjaged in several heavy prefusions, and has drawn to a large amount on various towars in New-Orienia, his drafts being readily cashed by

THE CROPS AND THE LATE FROST.—The Sandusky City (0.) Mirror says. The fears expressed in our less tumber that the severe frosts which prevailed on May let and 2d would be fasal to fruit, have been realized in central and southern Ohio. From Cincinnait, Colombias, Springfield and Urbana, we hear the same accountation of the value thus suddenly consumed is immease, while the diminution of comfort among the people is still greater. It is a cheeries prospect to a rural community, when such a plauge frost aweeps over the orchards. As far as heart from Indiana, Keniucky and Tennessee, the same disaster has occurred.

The Lake Coast has fortunately escaped. A farmer from Fymouth, Huron Co., 33 miles south, has expressed to us an appreheusion that there will be no fruit in this vicinity, but within 30 miles of Lake Erle, a dry surface and a cloudy sky have saved the bads. We think that all the towaships in Erle Centy have escaped. We congratulate our readers within that area upon an exemption so providential.

At Chicago, the fruit trees did not suffer. In Monroe Co., N. Y., the late warm and genial weather has produced an aimost magical effect to advancing vegetation. Wheat in particular, has changed the appearance, having exchanged the yellow color which provailed for the preceding fortigle, he for a deep laurilant green. Crops and vegetation generally, never looked better.

THE CUBAN INVASION.—The Saudannah News has intelligence from Jacksonville, that ite men who had rendevouzed there, with a view to the invasion of Guba had nearly all returned to their homes. A small company, probably not more than 60 or 70, were in the neighborhood of Burnt Fort, on the 7th inst, and were making arrangements to return to the interior.

The same paper publishes the following paragraph.—Whether it has any connection with the contemplated invasion we cantol say.

Capt. Brown, of the brig Aimira, arrived here on Saturday from New-Orieans, reports baving socken on Sunday, the 4th inst. twenty miles to the eastward of Kay West, a strange steamer which he supposed to be in distress. He saw a large number of men on board. The steamer was standing oefore the wind, and had neither steam nor sail on. Capt. B run down to her, and saxed if she was not teres and if she needed any assistance. He received for answer that she did not wish anything. When saked, where she was bound, the reply was that they did not know. She was painted a dark color and had no flag up. She was not very large, and appeared to be foreign built. The men appeared to be French or Spaulards.

THE RESULT OF KINDRESS.—The Jacksonville (III.) Journal says, that when the Superintendent of the Asylum for the Poor in that county first took charge of it, he found an insare man who had been loaded with heavy chains for years. Believing that this crueity kept the man pradually restoring hid 10 vells; it of taking them off, and expecting fresh torture; then he doubted, and finally resilted that he was free. He was overpowered with delight, exclaimining constartly as he looked upon the ourer world of sunstine: 'Oh, how heaufful!' Then gratitude to his liberator prevailed. At length he volustrilly went to work in the garden, though he had nearly lost all his power of locomotion, and he became entirely recovered. He is now working on a farm.

Detroit Tribans states that extensive depradations have for some time been committed upon the Government lands in Michigan. The amount of immer carried away milestrily to Wisconsin and Illinois, is caumated to five million feet per Week during the season of navigation. The whole casters shore of Lake Michigan, and that portion of whole eastern shore of Lake Michigan, and that portion of the upper Pentaula bordering upon Green Bay, were ori-gically covered with extensive forests of pine, which have been and are being manufactured into immber and carried off by speculators. The attention of Government having been directed to these robberles, steps have been taken to put a stop to them.

NEW-JERREY HISTORICAL SOCIETY.—At a meeting of the New-Jersey Historical Society on Thursday, Johnst Mr Bancroft read a paper on "The Early Union of the Province of America." The Neoural Mercury says: A passing but well merited compliment was paid to Penn, and other distinguished colonias, and it was clearly shown that South Casolina, was smoog the first of the colonies to recognize the importance of a Union, for the great purpose of building up and sustaining the interests of the continent. The paper will be published. A variety of interesting presentations were made to the Society—smoog which was a map of the City Piot in Newark in 160s.

THE CHOLERA IN LAFOURCHE - We noticed, a THE CHOLERA IN LAFOURCHE.—We noticed, as few days ago, by an article in the Thiodease Minerea, that the Cholera had appeared in Lafourche interior, and that on one plantation there had been several deaths from it. We now learn, further, that it is very bad, and that most cases prove fatal. It has appeared at several polisic along Bayou Lafourche. Col. Pugh lost three of his best bands in a few hours. Ten deaths also occurred at the plantations of Pitt & Ross, one at Matteer's and one at Robertson's. It had also breken out at Mr. Doyle's plantation, in Ascenaton. One fatal case had occurred at Donaldsonville.

[N.O. Pic.

FIRE IN BATH, Mr.-We learn from the Bath Fire in Bath, Mr.—We learn from the Bath Times that a free broke out on Wednesday moraling, in the stable connected with a hakery, which soon communication to the dwelling houses of Dr. J. Witainson and Mrs. Jecunings, the latter occuried by Mr. Nachandel Jennings, both of which were destroyed, together with a number of small buildings. Mr. Jennings saved nearly all his furniture—here for the Junious was consumed. Dr. Wilkinson's was consumed. Dr. Wilkinson's was consumed. Dr. Wilkinson's loss is about \$2,000. Mrs. Jenning's loss is about \$2,000. Mrs. Jenning's loss is about \$2,000. Mrs. Jenning's loss is about \$5,000. Wrs. Jenning's loss is about \$5,000. Mrs. Jenning's loss is supposed to be about \$5,000. Mrs. Jenning's loss is supposed to be about \$5,000. Mrs. Jenning on Friday last, and returned on Monday, (en. S. visted this post to confer with Gon. Arbucale about the best mode of carrying out the late order for establishing military posts on Capit, Marcy's esture route from Danian, Alia. New Mexico. Gen. Belanso will commence his narch, with two companies of the 5th Infantry about the losh lost Compenies G and i, we understand will go, and are commanded by Capit Revenson and Dest.

[Fort Bauth (Ar.) Herald, 2d.

Lake Superior.—The London came in this

LANE SUPERIOR.—The London came in this morning with a full freight of the commonlites of superior, copper from Cniff Mines, 5th. The newsteamer Monticello, of McKnight's Late Superior Line, was on the ways, and the most active exertions making to launch her across Lake Superior The London took up 20 passe gers, and considerable interest seems to be exhaused in relation to the Copper Mines. The railroad across the Portage is in full operation, with all it can do. [Cieveland Herald, 15th.

SEVERE HAIL STORM—We hear large accounts from the north part of the county, in regard to the severe that storm, accompanied with heavy tunder, which passed over it on Sunday affernoon. At Green Point and Messina. Springs, both about 3 miles from this city, very large hall stones feel, breaking any number of windows, and even killing fowls and birds. A gentleman from Manius, in miles disant, brought to this circ hail stones as large as common sized walouts. [Syracuse Jout. of Wed.

STEAMER COMET.—An attempt is being made to raise this boat at Oswego. She is badly brokes, and it is found very difficult to raise her. Two bodies of the three missing men have been found, one on Saturday and the other on Sonday. One of them is J. C. Hennessey, who leaves a wife and three chidren at Kingston. The other found is the colored cook, from Toronto.

The the year 18:31, there was but one newspaper problabed in Fernas. In 1841, there were cleen, and at this time there are thirty three. Without including many that had an almost ephemytrical existence, at different periods, between these dates there has been an increase of thirty tee in the last twenty years, or of rea in the first ten years, and incenty-free in the last.

The notorious Washington Gay, one of the SEVERE HAIL STORM - We hear large accounts

The notorious Washington Gay, one of the gang of Michigan desperadoes who set fire to the depot of the Michigan Central Railroad, and formerly a resident of Onondaga County, N. Y., died in the Detroit jail on the 5th leat.

ODD FELLOWS .- There was a large and splendid torn out of Odd Fellows on Thursday 10 dedicate a ded torn out of Odd Fellows on Thursday 10 dedicate a new hall in Norwich Pa. Rev. A. B. Groed Grand Chap-lin of the Older, presided over the ceremodies.

ILLINOIS — The total population of this State, according to the census returns, is \$19,822. Population in. 1840, 474,725. Gain almost 100 per cect.
